

## MGA

### Academic Program - Course Schedule and Learning Outcomes

Campus: Cochran

College/School: SOHNS

Department:  
Rehabilitation  
Science

Academic Degree: A.S.

Major: OTA

Track (if applicable):

#### What are the Program Learning Outcomes?

*A learning outcome is a description of the knowledge, skills and abilities you will gain as you complete your coursework.*

1. Students will use clinical reasoning in order to develop occupation-based interventions that address client factors, performance skills, and performance patterns.
2. Students will be able to apply therapeutic use of occupations with groups for the purpose of participation in roles and situations in the home, school, workplace, community, and other settings.
3. Students will be able to contribute to the OT evaluation process by administering standardized and nonstandardized screenings and assessment tools.
4. Students will demonstrate entry-level competence in the delivery of occupational therapy intervention to address physical, cognitive, psychosocial, sensory, and other aspects of performance in a variety of contexts and environments to support engagement in everyday life activities that affect health, well-being, and quality of life.
